

# Refactor Udagram App into Microservices and Deploy

Screenshot of DockerHub shows the images

Screenshot of the Travis CI interface shows a successful build and deploy job

A screenshots of `kubectl` commands show the Frontend and API projects deployed in Kubernetes.

```
cd0354-mono1ith-to-microservices-project on  main [+]  
→ kubectl get deployments.apps  
NAME                READY    UP-TO-DATE    AVAILABLE    AGE
